

## Begonias

### CARE INSTRUCTIONS

**Water:** Water regularly. Prior to watering, test the moisture, by positioning two fingers two-three inches into the soil. Water the soil until evenly moist.

**Light:** Bright Indirect Sunlight

**Temperature:** Ideal temperature between 55 to 75 °F. Do not expose to temperatures lower than 40 and higher than 80 °F for an extended period of time.

**Zone Hardy:** Zones 9-11.
